

Sister Patricia Volunteer guide

The organisation to which I belong has been involved with *Courage to Care* since its first days in 1999. Founded in the aftermath of World War 2, *The Evangelical Sisterhood of Mary* has grown to be an international and interdenominational community with sisters from over 20 countries. (see www.kanaan.org)

It is important for us to support *Courage to Care* as it seeks to teach and inform people about the basic kindness we can offer one another; to treat others the way you would like to be treated.

In recognition that the most horrific acts can grow from the smallest of negative seeds, I am happy to support and be a part of a team that seeks to heighten awareness that acts of kindness can and does change lives.

It is a joy to work with a diverse group of people with a richness of life experience.
